

# DSecu Embedded DVR

Remote Surveillance and Security system

## Key Features

- **Stability:** Embedded feature. Avoids system crash, virus attack and program upgradeable through internet.
- **Video / Audio:** Up to 32 videos /16 audios recording, remote/local audio listening.
- **Recording Modes:** Continuous, Alarm, Motion Detection, Instant & Scheduled.
- **E-Z Playback Search:** Search by Time, Date, Event & Cameras and playback up to 16 cameras simultaneously.
- **LAN Playback:** EzLANPlayback software allows playback of video clips via LAN.
- **Intelligent Search:** Narrowing search of specific regions from the recorded video and the video that is retrieved will show exactly when the object appeared or disappeared.
- **Motion Detection:** Built-In Software can be set up with selectable zones & sensitivity control.
- **Pre-Alarm Function:** Complete coverage of an event, seconds of video prior to motion detected by the camera will be recorded, when enabled.
- **Watermark:** Built-In Digital Watermark.
- **e-Map:** Indicating the locations of the cameras, sensors and Fingerprint controller.
- **Alarm Notification:** Via phone, email or live video, when triggered
- **Event log records:** Show records for logins/logouts, video loss, remote access, HDD failure, motion detection, POS text and Access controller text.
- **Triplex Operation:** Simultaneous Recording, Playback and Remote-Viewing.
- **Dynamic IP Solution:** With no static IP, with our optional "ID Codes" we connect them for you.
- **Mobile Phone Remote Viewing:** Supports mobile phone for remote monitoring.
- **Web Browser/I.E.:** Connect to multiple sites simultaneously and record /download /playback video clips at any remote location via Web Browser/I.E., View/playback up to 36 cameras per screen viewing from anywhere at any time.
- **Remote Online Support:** Users can remote access the DVR to change local settings/configurations if and when necessary, without the need for a site visit.
- **Surge Protection:** Each video input builds in a 25KV surge protector to avoid the damage of DVR from video-in voltage surges of nearby electrostatic strikes.
- **Integrated Fingerprint Access Controller**

Item / Model	DSecu-3404HS	DSecu-1908ASE	DSecu-1916ASE	DSecu-1932ASE
Operating System	Embedded O.S.			
Video Input	4	8	16	32
Audio Recording	4	8	16	
Compression	MPEG 4			
Recording Rate	NTSC:120FPS PAL: 100FPS	NTSC:240FPS ; PAL: 200FPS		
Resolution	352x240/352x 288, 704x288/704x240, 704x480/704x576			
Frame Size*2	1 K~3K/Frame @ 352x240 ; 4.5K ~7K/Frame @ 704*480			
Network	10/100/1000 Mbps Ethernet			
HDD Capacity	2 HDD (Install by user); Up to 2 TB			
DVD ± RW	Yes			
Back Up	CD-RW, DVD ±RW, USB2.0 or LAN			
VGA Port	VGA monitor display			
Video Out	Yes			
Auto Recovery	Yes			
Watchdog Timer	Yes			
Time Stamp	Yes			
Panic Button	Yes			
Remote Controller	Yes			
Alarm In/Out	16 Alarm input / 6 Relay output (Option)			
P/T/Z Control	Yes (Option)			
POS Text Insert	Insert POS transaction data (Option)			
Access Controller	Integrate Fingerprint Access controller (Option)			
Weight & Size	Approx. 12 Kg / 380 x135 x355 (mm)			
Temperature	Operation: 0-50°C (Non- Condensing) Storage: -10-60°C (Non- Condensing)			

## Order Information:

- DScu-3404HS:** 4 video input; 120/100 FPS recording Digital Video Recorder.  
**DScu-3404HS-A:** 4 video/4 audio input; 120/100 FPS recording Digital Video Recorder.  
**DScu-1908ASE:** 8 video input; 240/200 FPS recording Digital Video Recorder.  
**DScu-1908ASE -A:** 8 video/8 audio input; 240/200 FPS recording Digital Video Recorder.  
**DScu-1916ASE:** 16 video input; 240/200 FPS recording Digital Video Recorder.  
**DScu-1916ASE -A:** 16 video/16 audio input; 240/200 FPS recording Digital Video Recorder.  
**DScu-1932ASE:** 32 video input; 240/200 FPS recording Digital Video Recorder.  
**DScu-1932ASE -A:** 32 video /16 audio input; 240/200 FPS recording Digital Video Recorder.
