

Application Installation and Operation for Windows Mobile

There is one application for Windows Mobile OS. The one for H.264 compression can transfer both audio and video signal to your mobile device.

System Requirement:

Mobile device OS : Windows mobile system 5.0 above.

Mobile device need to support internet: GPRS / 3G / Wifi... etc.

1. Mobile Application Installation

Please follow the steps cited below to perform the mobile device surveillance function on your mobile device (mobile phone, PDA ...etc).

Step 1: The mobile application called "**H264Pocket.CAB**" need to be installed in your mobile device. The application can be transferred to your mobile device from the CD that packed with DVR through Bluetooth or USB cable.

Step 2: Install the application software "**H264Pocket.CAB**" in your mobile device, the folder named "**H264Pocket**" will be created. It might be installed automatically after downloading; otherwise, select it from the downloading file for installation.

2 .Mobile Application Operation

After the installation, enter the Program Files menu in your mobile device to file named “DVRU264Pocket” and run “H264Pocket” program.

This application allows you to remotely logon and monitor DVR. Press “OK” to bring up the operation menu, see below chart to further information.

Item	Function	Description
Add	Add login DVR	Enter DVR’s name, IP address, Port, Account user, Password then press “OK”
Login	Logon DVR	<ul style="list-style-type: none"> • Choose the DVR that you’d like to log on , then press “OK” • PS. The Live can not be displayed in your mobile when the recoding is off. • PS. Network connectivity will be affected by networking environment and bandwidth flow. The fee rate will depend on the telecom company and package fee you go with.
Modify	Modify Login DVR	Choose DVR, press “Modify”, and press”OK” to save change.
Delete	Delete Login DVR	Choose DVR and press ”Delete” to delete the DVR info.

3. Operation under the LIVE monitoring.
